

GENUINE PARTS

INSTALLATION INSTRUCTIONS

1. DESCRIPTION: Nose Mask

2. APPLICATION: Versa

3. PART NUMBER: 999N1 4T000

4. KIT CONTENTS:

Item No.	Qty	Description
A	1	Nose Mask, Main Piece
B	1	Nose Mask, Hood Piece
C	2	Snap Studs
D	2	Washers
E	2	Well Nuts
F	1	Installation Instructions Replacement Template

5. TOOLS REQUIRED: • Phillips Screwdriver • Scissors

6. INSTALLATION PRECAUTIONS / NOTES:

- 1) The area to be covered by the mask must be free of dirt. The flannel surface of the nose mask must be especially clean.
- 2) Both the vehicle and the mask must be completely dry. If moisture is present under the mask and is allowed to dry, it may cause the paint to cloud. If mask gets wet, remove and allow to dry completely.
- 3) Any repainted surface in contact with mask must be completely cured.
- 4) If the nose mask should flap due to high speed or wind conditions, stop car and adjust or remove mask.
- 5) Manufacturer will not be responsible for damage to product due to accident or misuse.

CARE OF NOSE MASK:

- 1) To clean the vinyl and flannel backing, use a cleaner such as "409" or "Fantastic".
- 2) The vinyl surface may be cleaned by simply spraying the cleaner onto the vinyl and wiping off with a cloth or sponge.
- 3) To clean the flannel backing, liberally spray the cleaner on the area to be cleaned. If heavily soiled, use a cloth or sponge with the cleaner and rub the soiled area gently. Repeat if necessary. Rinse completely with clear water when finished. Hang to dry, but not in direct sunlight. Before installation, ensure both the vehicle and the nose mask are completely dry. If there is moisture under the nose mask and it is not allowed to dry, paint clouding can occur.

⚠ CAUTION

- Attach all elastic straps with hooks and clips carefully and securely. Accidental release may cause injury.
- DO NOT pull the mask from any of the openings when installing the mask. This may result in DAMAGE to your mask.

INSTALLATION INSTRUCTIONS - Nose Mask

7. INSTALLATION PROCEDURE

1. Open hood and attach center elastics with hooks to holes located on either side of center hood latch opening. Be sure that hooks go into hole in second layer of sheet metal. Slip hood piece onto each corner of the hood and pull taut.

2. Attach adjustable web straps with hooks.
 - a) On both sides of vehicle, attach hooks on web straps to holes on underside of hood as shown in illustration.
 - b) Adjust straps to tighten and secure loose ends in elastic loops.

3. Install snap studs in both wheel wells.
 - a) Turn tire in appropriate direction to allow access to screw shown in illustration.
 - b) From the wheel well opening, remove one push pin on each side that corresponds to the mask snaps.
 - c) Replace them with the well nuts, washers, and snap studs provided.

4. If state or provincial law requires use of a front license plate, remove flap in area shown using the following method:
 - a) Using a pair of scissors and working from the back side of the mask, cut the RED stitching (thread) along all sides that are holding flap to mask.
 - b) Be careful not to cut the felt or thread under the flap. Improper removal of flap will result in damage to mask.

INSTALLATION INSTRUCTIONS - Nose Mask

5. Install mask around license plate bracket.
 - a) Slip license plate bracket through opening.
 - b) Pull out on top of license plate bracket and slip material behind license plate bracket.

6. Install mask above headlights.
 - a) Slip pocket over front corner of fender.
 - b) Attach clip over fender edge.
 - c) Perform steps a) and b) on other side.

7. Install snaps and clips on sides of mask.
 - a) Attach snap to snap stud in wheel well.
 - b) Attach 3 clips to inside edges of fascia.
 - c) Perform steps a) and b) on other side.

8. Secure mask at lower fascia opening.
 - a) Attach elastics with hooks to top of lower fascia opening.
Attach from outside of vehicle as shown.
 - b) Attach clips to bottom edge of lower fascia opening.

INSTALLATION INSTRUCTIONS - Nose Mask

9. Secure mask at fog light opening.
 - a) Insert 1 pad at outside of each fog light opening.

10. Secure mask along bottom of grill.
 - a) Insert 4 pads located at top center of mask into gap below grill.
