INSTALLATION INSTRUCTIONS – Xterra Cargo Cover

Install

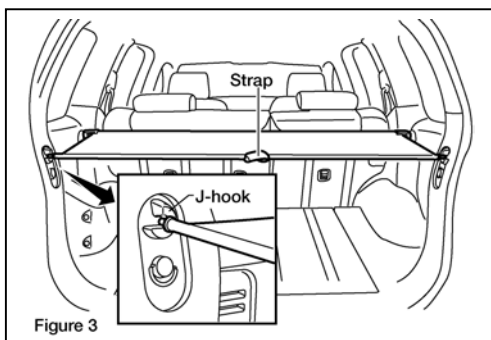

1. Tilt the cargo cover approximately 10-20 degrees, then install the nose tip end of the end cap into the quarter trim pocket. **See Figure 1.**

2. With the cargo cover tilted, compress the other end and lower it into the other side before fitting into the quarter trim pocket. **See Figure 2.**

3. Make sure the flat profile of the cover roller tube is facing upward. If not, the shade has been installed upside down. **See Figure 2.**

4. To extend the fabric cover, pull the strap toward the rear of the vehicle and install the pull tube cap into the J-hook feature. **See Figure 3.**

Remove

1. Make sure the fabric cover is fully retracted inside the cover roller tube. **See Figure 2.**

2. Compress one side of the end cap, then remove the cargo cover. **See Figure 2.**
